

*Gardenia
jasminoides*

Aimee Yashioka

Embrace Spring
With the Perfect
Patio or Atrium Tree

- New to Kraft Gardens
- Largest blooms of all gardenias (3-5" in width)
- First Gardenias to bloom, and continue to bloom well into the season
- Taller height, full heads and straight trunks — better than its competitors
- Springtime availability . . . Get them while you can!

Care Instructions

LIGHT: Outdoor filtered sunlight or indirect patio light.

WATER: Keep soil moist, but not soggy. Re-water when top 3-inches of soil becomes dry.

FERTILIZE: Apply a water-soluble, acid fertilizer while blooming.

BLOOM: Plant will begin budding when time of season (temperature) is right.

TRIMMING: Trim when plants get out of shape. Heavy trimming may reduce bloom count.
